

# **CHICAGO FACE DATABASE**

## **Version 2.0 - August 2015**

### **General Instructions**

Version 2.0 of the database includes high-resolution photographs of 597 male and female targets of varying ethnicity. Each target is represented with a neutral expression photo that has been normed by an independent rater sample.

For a subset of 158 targets, the database also includes photos with the following facial expressions:

- happy (with open mouth and visible teeth)
- happy (with closed mouth)
- angry
- fearful

Not all facial expressions are available for each of these 158 targets. Norming of the facial expression photos is still in progress.

For detailed information on the photo collection, development, and norming procedures please see:

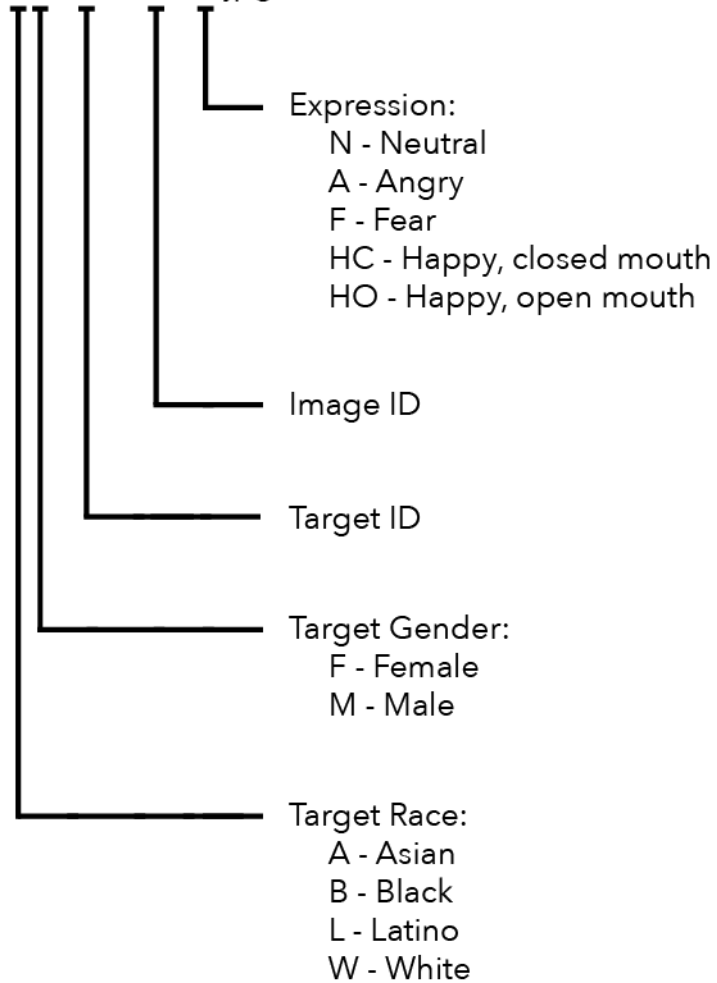

Ma, Correll, & Wittenbrink (2015). The Chicago Face Database: A Free Stimulus Set of Faces and Norming Data. *Behavior Research Methods*.

### **Terms of Use**

1. The database photographs and their accompanying information may be used free of charge for non-commercial research purposes only.
2. The database materials shall not be re-distributed or published without written consent from the copyright holder, the University of Chicago, Center for Decision Research.
3. No attempts may be made to identify or contact the individuals depicted in the database (including, but not limited to the use of CFD photographs in facial recognition software).
4. Use of the database materials must be acknowledged in all published work.

## File Naming

CFD-BF-999-999-N.jpg

## Version History

CFD 2.0 - August 2015

Addition of 439 new neutral expression photographs with norming data. The database now includes Asian, Black, Latino, and White male and female targets.

CFD 1.0 - September 2014

Neutral expression normed photographs of 158 Black and White males and females. Plus photographs with varying facial expressions for each of the 158 targets; not yet normed.
